

Zero Retries Special Edition 2022-02-16

I'm trying something new here that Substack calls **Threads**, which they describe as *tweet-length (1-3 sentences) that encourages general discussion*.

Since feedback is a bit light for Zero Retries, I thought I'd try using "Theads" for a different purpose as a quick "heads up" without the overhead of a Zero Retries newsletter. So with that in mind...

Check out my new post on N8GNJ.org - [New Acquisition from Craigslist - Kenwood TS-130SE HF Radio](#).

Blogging is a different set of writing muscles, and it's fun to make an original blog post again.

I'd appreciate any feedback on this, or on Zero Retries in general.
